Preface

About This Document

This document provides information on how to download, install, configure and use Airhotels for Magento.

Disclaimer

Apptha reserves the rights to add, remove, modify business models, processes related to packaging, selling, marketing, developing extensions and themes of Apptha.com at any time and without prior notification. Apptha reserves the rights to add new features to its products based on research and market needs. Apptha reserves the rights to remove any feature of its products that does not fulfill expectations.

Product Overview

Building an own booking and renting website can be done easily using Apptha's Airhotels Magento script. This ready-to-go software catalyzes the multi-host website building task with its built-in framework. The software offers host to add their listing with free of cost and allow buyer to book the experience. Admin will get commission for each and every booking from buyers.

Features List

For Store Owner

- Readymade Magento software to set up a fully functional all-in-one booking/rental website.
- Creates a marketplace that allows guest to find any type of booking for rental services.
- Facilitates booking services with multiple options to make payments.
- Allows guests to quickly browse, choose type of booking, reserve and pay online in a single click and enjoy the web advantage.
- Default Magento backend with additional features of our Airhotels Script extension will let the admin have full control of Guest and Host Activities and manages it easily.
- Service fees functionality added for each type of booking registered.
- Multiple subscription plans can be set for a single service on offer.
- Admin can use split payment which saves time to process the payment manually to host using Apptha PayPal Adaptive.
- Recurring plans can be set based on the type of the service or listing provided by the host.
- Website Owner can verify and approve the host based on their documents, Id proofs and video.
- Website Owner can display the popular experience cities in the home page based on the maximum number of orders placed.

For Guest

- Simple search with time option based on city, country, date, time and number of guests.
 - Shows video on the homepage.
 - Provides location map to identify space.
- 

- Facility for guests to post reviews.
- Provides checking availability for booking using calendar.
- Guests can check the availability status while booking.
- Trip List can be tracked by a guest through their accounts.
- Supports currency conversion with currency switcher on the frontend.
- guest-friendly Ajax advanced search with easily search options such as address, check in, checkout, Seats, price, booking type and specification.
- Facility to communicate with the host through inbox, sent items and reply functions.
- Detailed description of the booking item with suggestion on nearby location/item, host's other items/properties.
- Customers can rent services for any particular time period as per their requirements.
- Time based search option integrated in the home page search bar.
- Notification mails will be sent to customers and hosts when a booking is done.
- Guests can choose the subscription options like daily, weekly, monthly which is added by host.
- Social login allows easy login/registration.
- Checkout is simplified for the guest to book the experience.
- Advanced search allows you to filter using property type and price.
- Allows guests to search top destinations.
- Invite friends through Google and Facebook.

For Host

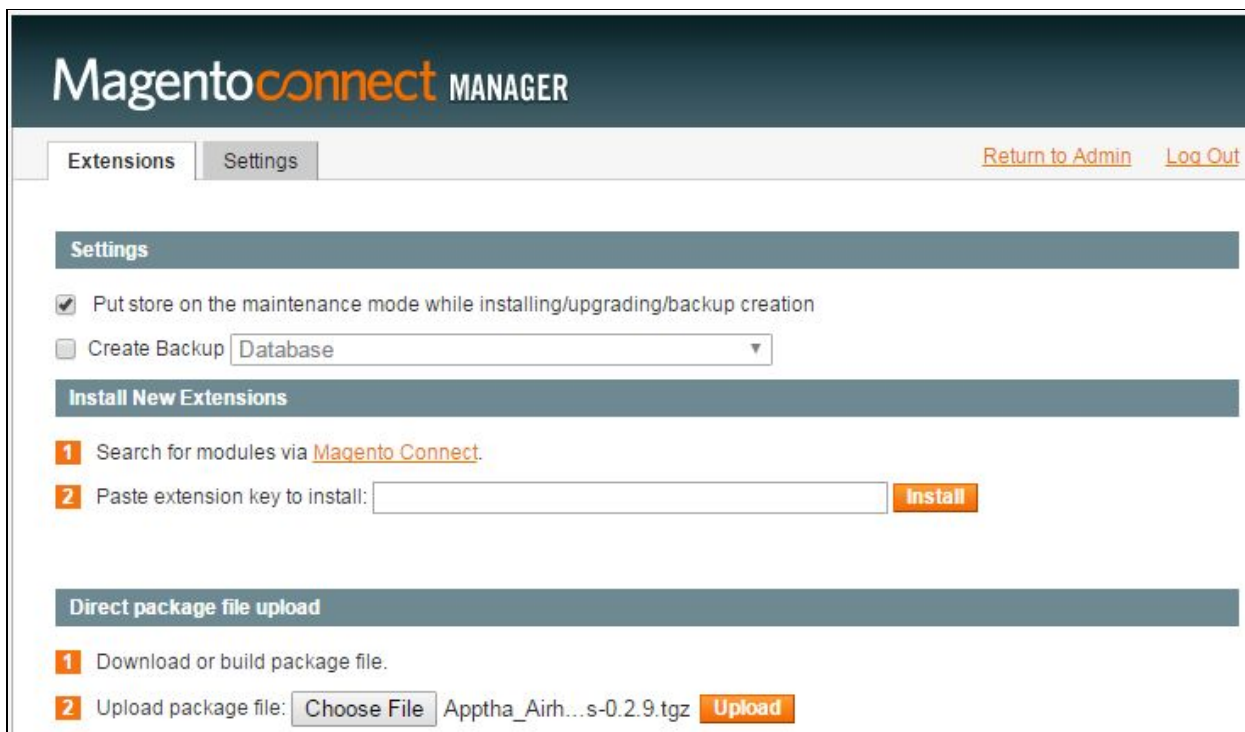

- Google calendar synchronization with host's daily booking calendar.
- Provides location map to identify type of booking used.
- End guests(Guests) can post reviews on listings/items they have used.
- Provides checking availability status while booking.
- Property Owners (Hosts) can be contacted by the end guests for getting more details on booking availability.
- Facility to track a guest's trip list through their guest account.
- Host can be contacted through the inbuilt mail function.
- Detailed description of the experience with suggestions on nearby location of the service to be booked.
- Host can post the experience either as daily/hourly basis.
- Host can set the minimum and maximum time limits for booking a rental service in hours and day timescales.
- Time limit for service hours can be set by the host from the host Dashboard.
- A specific amount or percentage can be set as 'Overnight Fee' if a service is booked by a customer outside the service hours.

- Notifications will be sent to the host and customers whenever a booking is made.
- Dates in the calendar can be set to display the specific time period for which a service has been booked.
- Hosts can block any specific hours or days.
- Special prices can be added by the hosts for extended working hours.
- Hosts can setup multiple time-based subscription options like daily, weekly and monthly.
- Multiple subscription plans can be set for a single service or experience on offer.
- Host can submit their id proof and documents to get verified by website owner.
- Host can add multiple images and video to describe about their experience.
- Property related videos from websites like YouTube and Vimeo can be embedded into property Listing page.

Installation

After purchasing the script, login to www.apptha.com, kindly go to My Account-> My Downloadable Product for downloading the package. Once you download it, kindly login to the admin panel of your Magento site → Go to System->Magento Connect->Magento Connect Manager and upload the package (Apptha_ Airhotels.tgz). The files that you install from connect manager should be in.tgz file format.

Magentoconnect MANAGER

Extensions Settings [Return to Admin](#) [Log Out](#)

Settings

☒ Put store on the maintenance mode while installing/upgrading/backup creation

☐ Create Backup Database ▼

Install New Extensions

1 Search for modules via [Magento Connect](#).

2 Paste extension key to install: **Install**

Direct package file upload

1 Download or build package file.

2 Upload package file: Apptha_Airh...s-0.2.9.tgz **Upload**

License key

How to generate license key

To generate the license key, Select "Generate License" in the left hand side of your account in [www. Apptha.com](#) and you can generate the license key with your Order number, Product name and the Domain name.

Airhotels Configuration

General Configuration

Enable Airhotels Yes ▼
▲ This option is used for multi-store configuration

Apply License Key CONTUS

Initial Settings

Applying License Key

Go to Admin->Airhotels->Configuration->Under General configuration Tab->Apply License Key. Once you enter the License Key, it is mandatory to enter the Order Processing Fee and Commission Fee. Also make sure that "Enable Airhotels" is set to 'Yes'. After entering all the informations Save the settings.

If you get 404 error while accessing configuration of Airhotels, please logout from Apptha admin and login again.

Now go to Admin-> System-> Configuration-> Design-> Under Themes tab-> Default. Enter "stylish" here. Please note that this is the only theme that works with our Airhotels.

Note : *If you are using our Airhotels in your http://localhost/ or IP address, please enter the License key as "CONTUS".*

If you are using in localhost.com then use the key : SY3WGLIEWIEYJFIQ-WBCTIKDNCONTUS

Once you added the attributes, go to Catalog-->Attributes-->Manage Attributes-->Attribute sets. Here select "Default".

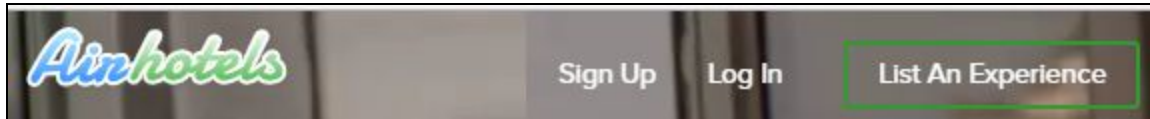

You have to drag and drop the custom attribute which you have created under the group's "Property Information" to display in frontend.

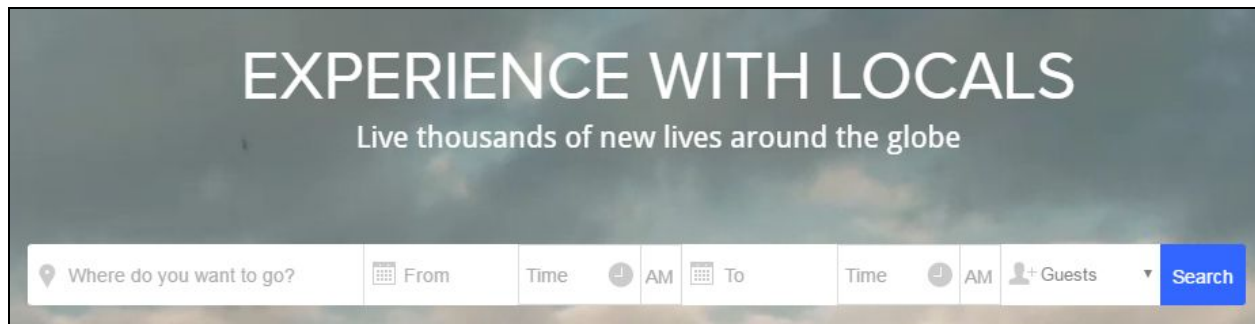

Once you saved the attribute , go to Index Management and reindex data to affect the changes in the website.

Front End

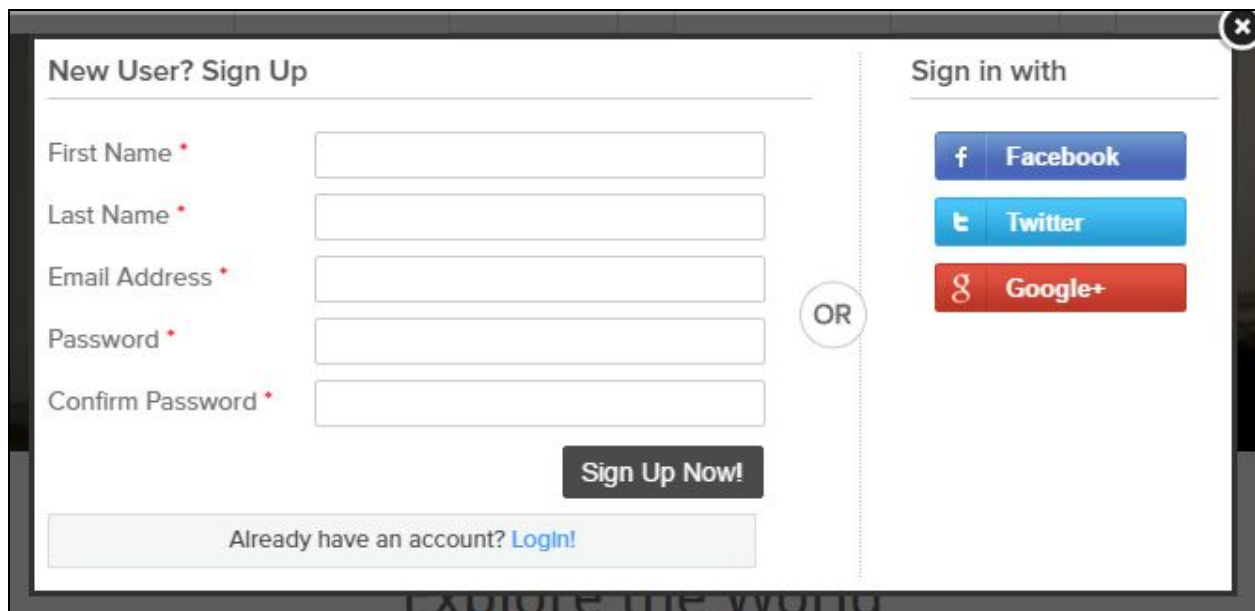

Home Page

Search option: In the home page, search option will be available to search a experience based on location, check-in,check-out time.Video will be displayed in the homepage.

The image shows a large search bar on the home page. At the top, it says 'EXPERIENCE WITH LOCALS' in large white letters, with the tagline 'Live thousands of new lives around the globe' below it. The search bar itself is a horizontal row of input fields. It starts with a location field labeled 'Where do you want to go?'. This is followed by a 'From' field with a calendar icon, a 'Time' field with a clock icon and 'AM' dropdown, a 'To' field with a calendar icon, another 'Time' field with a clock icon and 'AM' dropdown, a 'Guests' field with a person icon and a dropdown arrow, and finally a blue 'Search' button.

The Time option in the search field will be displayed only if admin has enabled the hourly timings. guest can search the listings with time period. Using social network credentials,we can login into the website.

The image shows a modal window for user registration and login. It is titled 'New User? Sign Up' on the left and 'Sign in with' on the right. The 'Sign Up' section has five input fields: 'First Name', 'Last Name', 'Email Address', 'Password', and 'Confirm Password', each with a red asterisk indicating it is required. Below these fields is a 'Sign Up Now!' button. At the bottom of the sign-up section is a link: 'Already have an account? Login!'. The 'Sign in with' section has three social media buttons: 'Facebook', 'Twitter', and 'Google+'. A circular 'OR' button is placed between the sign-up and sign-in sections. The modal has a close button (an 'x' in a circle) in the top right corner.

Cities listed in home page

City which has more number of completed orders will display here. Admin can add image of the city to display here. guests can search the experiences in the specified country/city by clicking the image.

Advanced Search Page

In the booking listing page, guests have options to personalize their search with Price, Booking Type and Amenities options with location map.

The screenshot shows the 'Airhotels' search interface. At the top, there's a search bar with 'London, United Kingdom' and links for 'Sign Up', 'Log In', and 'List An Experience'. Below the search bar, there are filters for 'Date' (Check In, Check Out, Time, AM/PM), 'Room Type' (Private, Shared, Public), and 'Price' (\$0 to \$15,000). A 'Show Filters' button is located below the price range. The results section displays two property listings: 'Art James Apartment In Shoredi...' with a price of \$10 and 2 reviews, and 'Spacious Living Room Great Vie...' with a price of \$50 and 0 reviews. A map of London is shown on the right side of the page.

Property Detail Page

Once you click the property, it redirects to property detail page where you can see the property image, specification, rules, Hostname and their ratings as shown in the below screenshots.

About this listing

The Space Available for you to rent is a comfy sofa bed (for 1) in our spacious living room with great views over the London skyline. It's a really good budget option if you are travelling to London for sightseeing or for a short getaway. **Please note this is NOT a separate bedroom, you have complete privacy overnight, but during the day and evening (9am-11pm) it is the living room and kitchen where we cook, eat and socialise** The location is great with good access to central London. The flat is situated in South Hackney a few minutes walk from

Good

We stayed here for our family holiday last June - Its not 5 star luxury but you get what you pay for. It was clean had decent facilities and all staff were polite and helpful especially Maralyn in the bar!! Food was cheap and good especially the delicious buffalo wings!! Great pools and a lovely nature area - close to parks with free transportation Stayed May 2014, travelled with family

About your companion

Description about the host will be displayed here.

About your companion,

I come from an upper middle class family. The most important thing in my life is religious believe; moral values & respect for elders. I am modern thinker but also believe in good values given by our ancestors. I love trekking, going on trips with friends, listening to classical music & watching

Albert

Great Resort In A Good Location

Having returned to Florida again for the first two weeks of the year we decided to stay at The Champions World Resort and glad we did, what a great resort in a great location. I feel that you definately need a car as it is quite a way away from the parks but you can always use the hotels shuttles. Overall it was a great hotel in a great location

New Loft in Great Location 5th, February 2016

Settings

You can enter your country of residence. If you want to cancel the account you can cancel it from here.

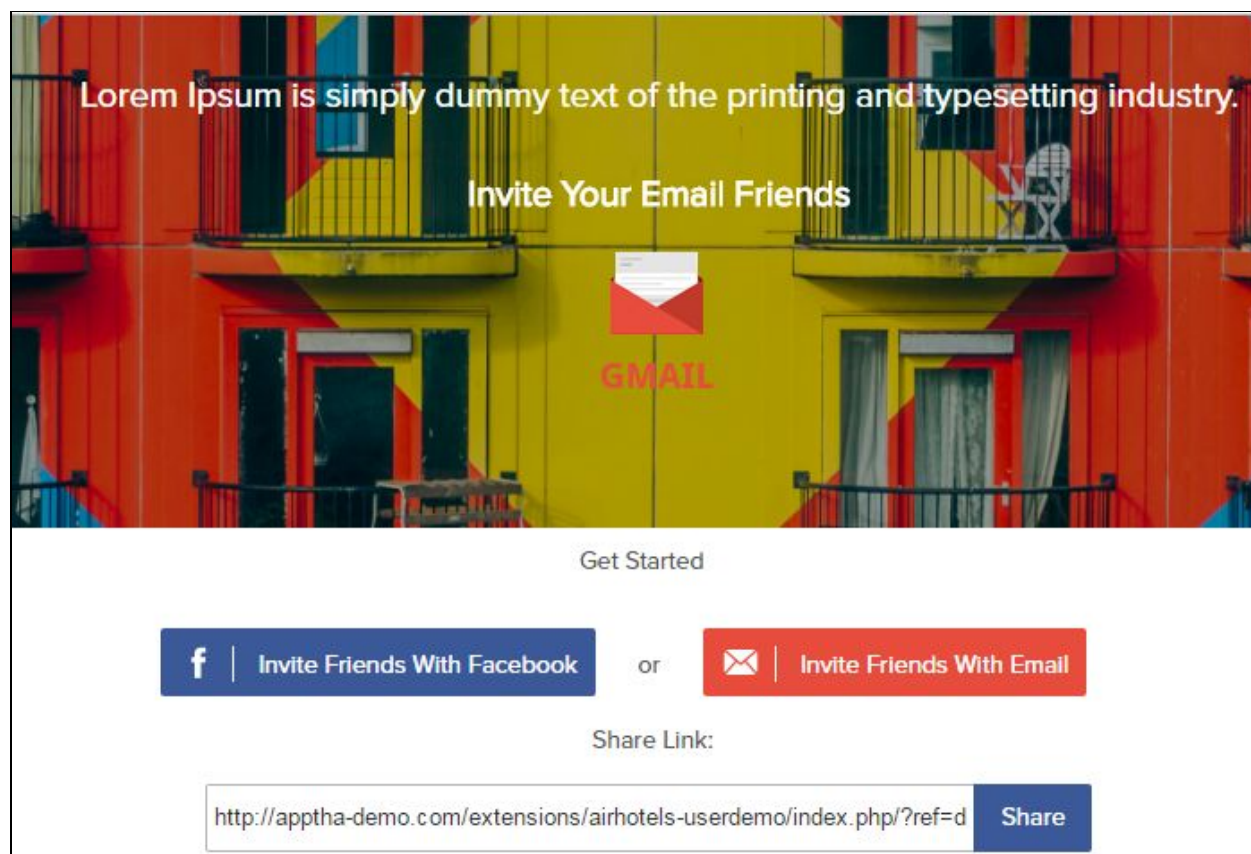

The screenshot displays the 'Account' settings page. The top navigation bar includes 'Dashboard', 'Inbox', 'My Listings', 'My Trips', 'Profile', and 'Account' (highlighted in green). The left sidebar lists 'Account', 'Notifications', 'Transaction History', 'Invite Friends Transaction History', 'Payout Preference', 'Security', and 'Settings' (circled in green). The main content area is divided into two sections: 'Country of Residence' and 'Cancel Account'. The 'Country of Residence' section features a dropdown menu currently showing 'Afghanistan', a confirmation message 'Click to save 'Country of Residence' to confirm.', and a 'Save Country of Residence' button. The 'Cancel Account' section contains a placeholder text 'Lorem Ipsum is simply dummy text of the printing and typesetting industry.' and a 'Cancel Account' button.

Invite Friends

You can invite your friends through Facebook and gmail. You can also share the link to your friends.

If the Invitee booked/post any experience, then the amount specified by admin will be credited to the account who invited. Also will get discount for the first time purchase.

List an Experience

To add a new listing in the website, host (listing owner) has to submit this form by filling the required fields. If the option "Property Moderation" in Property settings Tab in the admin panel is set to Yes, then host has to wait for the administrator's approval to display the listing in frontend.

After submitting the form, a notification email will be sent to the admin. If Admin approves the listing, a confirmation email will be sent to Host.

Translation

Follow the steps given below to translate all keywords in Airhotels to your language:

You have to install the language package for Magento for translation.

1. Login to your hosting server's file manager or ftp.
2. Go to app→ locale → <your_language_ folder>. (Ex.en_US)
3. Open Apptha_Airhotels.csv.
4. If Apptha_Airhotels.csv. is not found in your language folder, copy it from en_US folder.
5. Edit the file and add the text as per the format given below

“English Text”, “Your Language Text”

For example:

Administrar Ficha “Ingrese su ubicación de reserva” “Contratar” “Ex.Los Ángeles”

Note: If you have multilingual site, you will have to copy Apptha_Airhotels.csv to each language folder and translate accordingly.

FAQ?

1. How to edit the email templates?

Answer: Here you can edit the email templates for your marketplace.

app/locale/en_US(your language)/templates/emails/airhotels

(OR)

You can also edit in the Admin --> System --> Transactional Emails --> Add New Template --> Choose and load the template which you want to edit.

2. How to change the currency?

Answer: You can change the currency in the Admin-->System-->Configuration-->Currency Setup--> Currency options.

Here you can choose the base currency and Allowed currencies (if you want to display multiple currencies)

3. How to enable email confirmation while registering?

Answer: Log in to the admin panel of your Magento and go to System->Configuration->Customer Configuration button in the Customers section on the left->Create New Account Options panel on the right-> Require Emails Confirmation drop-down menu.

Set the drop-down menu to 'Yes' to enable email verification and click on the Save Config button in the top right corner.

4. How to change the text displayed in the Home page banner?

Answer: You can edit in the following file path

app/design/frontend/default/stylish/template/airhotels/airhotels.phtml.

5. How to locate the file path of the template?

Answer: Login to the admin panel of your Magento and go to System->Configuration->Developer from the left pane. Now select "Default Store View" from the drop down of "CurrentConfigurationScope" in the left top.

Enable the "Template Path Hints" in the right side and save it. Then refresh the website to locate the file paths.

6. How to create new attributes for adding additional fields while adding property?

Answer: Login to admin panel and your Magento and go to

Catalog->Attributes->Manage attributes where you need to create the new attribute fields and enter the fields and save it.

For assigning the attribute go to Catalog->Attributes->Attribute now assign the created attribute (unassigned attribute)to the to the custom attribute and save it.

7. What are the free add-ons comes with Airhotels?

Answer: 1. One step checkout
2. Paypal Adaptive payment
3. Social Login
4. Recurring payments

8. Can Airhotels be used for any other rental business?

Answer: Yes, Airhotels can be used for any rental business, but you have to change the texts from csv files as well change the attributes accordingly.

9. Does the software comes with theme or can we use any other theme with the software?

Answer: Yes, the software comes with the theme called "stylish" and the software cannot be used with any other theme.

10. Is it possible to add properties from admin?

Answer: No, it is not possible to add properties from admin. Only host can register and add properties from front end.
